

Dear interested 80edays participant,

Thank you for your interest in participating 80edays in 2020. With your support we will make the world a bit better pushing the industry to produce better electric cars with more range, faster charging and better price.

We collected the information which could be interesting for you and made out of it a small presentation you are welcome to read or distribute to interested participants. Please contact us so we can send it to you via email.

For your information, we pay a commission of 3000€ for everyone who convinces a team to participate. The commission will be paid as soon the new team pays their participation fee.

Overall there will be 20 slots due to the circumstance that the planned sailing ship won't be able to transport more cars. This internal mailing list of interested people is having 45 subscribers, all of them are also in the 80edays newsletter distribution list.

Already 12 teams showed their interest by signing the 80edays NDA.

Two starting slots are already taken (Team Spain I and Team Switzerland I). Let's see who will be the team for slot number three

In the last page of the presentation you will find the description how to become an official 80edays team. In case you are signing the NDA it will be much easier for you to find sponsors because you will be already named as interested team at the website.

Looking forward getting your feedback

Rafael de Mestre
