How to participate in 80edays 2020

First of all, I would like to thank you for your interest in participating 80edays. The amount of 42 interested teams in this mailing list shows that we are on the right way accelerating EVolution challenging electric car technologies and teams in a thrilling adventure.

Following some additional information:

GENERAL

80edays again is writing automotive history making all of the participants famous being a part of it. The third edition of 80edays will point out that there is no need to burn a single drop of gas for driving an electric vehicle around the world. This will be the first time in history an electric car will circumnavigate the world without burning a drop of gas even not for the transport of it.

Two months after the rally in November we counted over half a Million single visitors on our website which is showing our project being the electric vehicle rally with the most interest of the world.

TEAMS

We are happy to announce that we're already having two teams who officially declared their participation so 10% of the starting field is already taken. We plan to restrict the participation field to 20 teams. The first 15 teams will be set as participants. In case there will be more than 20 teams till end of 2018 wanting to participate we will either make a competition rally in 2019 to find out the best 5 teams for the starting slots 15-20 in case we don't find a solution for the transport. A team shall consist of two persons minimum but you also can have four or more drivers if you want.

CATEGORIES

We defined several categories you can find under the rules definition online.

The category "Adventurer" will be travelling together with the car without permit to burn any gas from start till end of the rally, so even a Taxi has to be an electric one ;)

Other categories like "Business" restrict only the car to drive emission free around the world. In this category, you will have three driving slots and in between you will have time to fly back to follow your business during the transport which is assumed 15 days and 35 days depending on the wind conditions. In this case the needed gas burning for personal transport will be compensated by [planting trees in Nicaragua](#). Check out which could be the best category for you and your sponsors [here](#). Yes, it will be allowed to stick the car 50% with personal sponsors supporting only to your team.

ROUTE

The start will be 90% Barcelona and we will travel over Madrid and Lisbon to Toulouse, Paris, Luxembourg, Brussels, Cologne to Amsterdam where the cars will be shipped to Halifax. You will be free to choose the detailed route but you'll have to pass every [80edays tree planted](#) this year by the 80edays ELDURO teams. In case a team of a country which is not on the route is wanting to participate we will add the country to the route. We assume to drive about 33.000 km breaking the Guinness World Record of the longest ever driven rally.

NEXT STEPS

In case you didn't sign the NDA yet you will get a NDA to be signed. After signing the NDA which is only a commitment to keep the following information confidential you will get more information like the draft of the contract and more details.

There is a very early bird Inscription discount of 5.000€ in case the participation fee is paid till 31.12.2016.

PROMOTION

In case you already want to show your 80edays support you're welcome can buy an official 80edays shirt online or at the official shop in Barcelona. Every tree plants a tree and compensates your Christmas tree ;) [Click here for more information](#). In Barcelona also 80edays caps are available to be bought.

By the way did you already like 80edays on [Facebook](#)? Every like and sharing helps. And in case you know someone who is interested to join you're having the chance to get 3.000€ provisioning in case he will sign to be an 80edays team.

See you at a charge stop somewhere on this planet ;)

Merry Christmas
Rafael de Mestre

[Open questions? Contact us here!](#)

P.S.: The ones of you who already signed the NDA will get the contracts for proof reading this week and will be put in a separate email distribution list after Christmas.
