The third episode is intending to drive 40.000km in 80 days in a standard electric car without transport not breaking the old records but setting a new one. This world record will be awarded officially by an Official World Record Marshall on 1.11.2020 in Barcelona in the frame of the famous Expoelectric exhibition.

The next 80edays is planned to start soon on 11.7.2020.

Cross the fingers that borders will be open till then.
